swsarra@au1.ibm.com

The Program

Over the three-day program, students will spend time at the IBM office and The Australian National University (ANU), participating in a variety of activities, including:

- ✚ Hear from two of Canberra's leading women in technology:
Kirsten Garwood, Lead for Government and Health, IBM, and
Professor Elanor Huntington, Dean of the ANU College of Engineering and Computer Science
- ✚ Interact with robots and program them to complete obstacle courses
- ✚ Explore human-centred computing using eye tracking technology
- ✚ Use artificial intelligence to play Angry Birds
- ✚ Explore the power of the Internet of Things (IoT)
- ✚ Use Java to draw patterns and create animations
- ✚ Guest speakers from CSIRO and Inspire who will talk about cool STEM programs in the ACT and careers in Science
- ✚ Participate in career mentoring sessions with successful young women working in Science and Technology
- ✚ Receive a tour of the ANU campus
- ✚ Receive a tour of the IBM Australian Development
