

Cyber Science and Technology in Your School ~ an exclusive for School Principals

Join us at this special event. Steve Morrill, international Cyber Education expert and educator will shed light on why and how to incorporate cyber technology into your curriculum, solving the cyber skills gap and utilising the Life Journey - Day of STEM teachers program.

**Don't Miss Steve's
Principals, STEM & Curriculum
Leaders ~ Cyber Science &
Technology in your School
The DISH**

**Australian Signals Directorate
Level 1, 10 Richmond Ave, Fairbairn
Wednesday July 26, 2017
9:00am to 10:00am**

Cyber=STEM

**Steve Morrill:
International Cyber Teacher
Mentor in Australia
Masterclass for teachers
in Cyber Education**

The Australian Signals Directorate, (ASD) the Information Technology Educators of ACT (InTEACT) and LifeJourney presents Steve Morrill, internationally renowned Cyber Science and Technology educator.

Steve Morrill is currently the Director of Technology & Cyber Science at Loyola Blakefield in Towson Maryland. Prior to joining Loyola Blakefield, Steve spent 13 years managing and teaching technology in higher education.

Steve is transforming school curriculum through cyber education that inspires students to be internet savvy and creative with technology. Our GenCyber are the next wave leaders: empowered, innovative, problem solvers and solutions experts of the future.

"If our schools are to perform as they should, they will live in a continual tension between the old and the new, the comfortable past and the uneasy present."

- Fr. Pedro
